

TJEP RE-BAR 40

World premiere of the new TJEP RE-BAR 40 tier

*Ergonomic
and reliable*

*Super-efficient
re-bar tier*

*Approx. 3,000 ties
per charge*

Your benefits

The TJEP re-bar tier is an effective alternative to manual binding, which is traditionally a monotonous and stressful task. The ergonomic re-bar tier not only improves working conditions, it is also an economic and reliable solution, which helps to solve tasks far more effectively. Some advantages of the TJEP RE-BAR 40 are:

- Tight and firm ties (2 or 3 wraps)
- Up to 5 times faster than manual tying
- Consistent quality of the ties
- High efficiency and user-friendliness
- Ergonomic one-hand operation
- Short payback on investment

Read more about TJEP re-bar tiers, wire and accessories at www.tjep.eu. You can also call us on +45 97 14 14 40 to learn more or book a visit by your local TJEP consultant, who will happily stop by for a demonstration.

Strong and firm ties

The right choice...

An experienced partner

KYOCERA UNIMERCO Fastening A/S has more than 10 years experience in consultancy, sales and service of re-bar tiers. The product range of MAX re-bar tiers and tie wire is complemented by TJEP re-bar tiers, tie wire and accessories, suitable for tying re-bars as well as underfloor heating pipes.

A wide range

For more than 50 years, we have been among Europe's leading suppliers of nail guns, nails and accessories. Today, the TJEP range consists of approx. 70 different models of air and gas-powered nailers, staplers and finish nailers as well as re-bar tiers.

Small details make a big difference

We believe in doing things well and exceeding expectations. Therefore, high quality, professional advice and good service are cornerstones of our business philosophy.
